

Eastcombe Recreation Ground: The Recreation Ground has had a lot of work done on it in 2020. The matting was replaced and strengthened and woodwork and metal work treated to ensure it lasts.

We are also grateful to the Eastcombe Village Group who, with money donated by Stroud Rotary, organised for the purchase and installation of a new picnic bench adjacent to the play area.

Baptist Chapel Upper Graveyard: Consent was obtained (Trees in a Conservation Area) to improve access by removing some of the low branches and crown lifting of some of the trees whilst also maintaining the special ambience and wild flora. The work was completed in Spring 2021 and was jointly funded by the Baptist Chapel and the Parish Council.

Stone Walling: Eastcombe ward now has a three year Wall Maintenance rolling programme. This is to allow maintenance work to be completed on the various dry stone walls that the Parish Council is responsible for, before they fail. Work is in progress along the dry stone walls that border the Allotments.

Bus Shelter: In Spring 2021 the PC supported and helped fund work to enhance the bus shelter. It has been decorated on the outside with plants and inside with local art work. A noticeboard and an exchange section for items such as seeds, books and DVDs are included.

Bus shelter prior to a refurb

New Notice Boards: There are two new notice boards for public use on Dr. Crouch's Road and on Eastcombe Allotments. As always please remove any old notices once they are time expired.
